

Please note that NATIVES are being shown in **COLOR**. Please be aware that plant names can be confusing – between common names (plants often have multiple common names) and botanical names as well as botanical names that have changed recently or over time. While we try to be accurate, everyone makes a mistake sometimes. Please accept our apologies if this happens. Again, we are trying our best to be accurate. For the shrubs and trees, we are also showing the sizes of the pots (1, 3, 5, or 7 gallon) so you can check on local pricing (if you can even find them) because we think we will have prices set below local market prices!

## **PERENNIALS**

Agave 'Truncata' (Century Plant)

Agave V-R 'Porcupine'

Aster 'Ashvi'

Aster *novae-angliae* 'Purple Dome'

Aster tataricus 'Jindai'
